

Space Coast Science Education Alliance

The Space Coast Science Education Alliance (SCSEA) is an affiliation of organizations devoted to education, science and the environment.

Throughout the year, SCSEA sponsors and coordinates many events to improve science literacy in Brevard County - Florida's Space Coast.

PROGRAMS COORDINATED BY THE SCSEA:

Middle School Science Bowl

Earth science, physical science, life science, math, energy, and general science.

Research Rules!

A science fair conference for students in grades 5 - 8, their parents and teachers to learn how to design a winning project with lots of science fair tips from the experts.

Aspiring Scientist Award

Two awards for elementary students whose science fair projects showed unusual creativity and scientific thinking.

Speaker Series

These lectures provide students and the general public with information on timely science-related topics by engaged scientists.

Exemplary Science Teacher Awards and Banquet

An awards dinner to honor the efforts of eight science teachers from Brevard County who demonstrate best practices in the area of science instruction.
